

Children

A message to parents ... We require, for most programs, that children are the required age, as of the date of the first class. All age requirements are set to benefit the child and allow for more consistent program instruction. In some instances, the requirements have been set for the child's safety. Registration by Internet or phone will be accepted if the child is the appropriate age at the time of registration. If your child does not meet the age requirements by the start of class, please register by fax, mail-in or in person. Please note: The registration deadline for all activities is two weeks prior to the start of class, unless otherwise stated.
